#### MONSTER BEVERAGE REPORTS 2015 FIRST QUARTER FINANCIAL RESULTS

-- First Quarter – A Transitional Period <u>Planning for Long-Term Strategic Alignment with The Coca-Cola Company --</u>

2015 First Quarter Financial Highlights:

- Profitability negatively impacted by \$206.0 million of termination obligations as a result of distributor terminations
- Revenue positively impacted by \$39.8 million of acceleration of deferred revenue associated with the terminated distributors initial buy-out contributions

**Corona, CA** – May 7, 2015 – Monster Beverage Corporation (NASDAQ:MNST) today reported financial results for the first quarter ended March 31, 2015.

#### Long-Term Strategic Partnership with The Coca-Cola Company

In August 2014, Monster Beverage and The Coca-Cola Company entered into definitive agreements for a long-term strategic partnership to accelerate growth for both companies in the global energy drink category. The transaction, which is subject to customary closing conditions, is expected to close in the second quarter of 2015. In early February 2015, in accordance with its existing agreements with certain affected third-party distributors, the Company sent notices of termination to the applicable third-party distributors in the U.S., providing for the termination of their respective distribution agreements, to be effective at various dates beginning in March 2015.

As a result, the Company incurred termination obligations relating to such terminations in the amount of \$206.0 million during the 2015 first quarter. Such termination costs have been expensed in full and are included in operating expenses for the 2015 first quarter. In addition, the Company recognized revenue of

deferred revenue as well as distributor termination costs, on a tax affected basis, increased 13.8 percent to \$0.62 from \$0.55 per diluted share in the comparable 2014 quarter.

Net sales for the Company's DSD segment were \$605.8 million. Excluding acceleration of deferred revenue, net sales for the Company's DSD segment for the 2015 first quarter increased by 10.0 percent to \$566.0 million, as compared to \$514.4 million in the same period last year.

Net sales to customers outside the United States were \$113.0 million in the 2015 first quarter, compared with \$115.8 million in the corresponding quarter in 2014. Unfavorable currency exchange rates had the effect of reducing gross sales by \$15 million and net sales by approximately \$12 million in the quarter.

#### **Other Factors Impacting Profitability**

Results for the 2015 first quarter were also affected by certain other factors, including \$12.0 million of decreased net sales due to unfavorable changes in currency exchange rates, \$4.9 million of expenses related to regulatory matters and litigation concerning the advertising, marketing, promotion, ingredients, usage, safety and sale of the Company's Monster Energy® brand energy drinks; professional service and other transactional costs related to the Coca-Cola transaction of \$3.6 million as well as additional payroll taxes of \$7.2 million following the exercise of certain stock options.

Rodney C. Sacks, Chairman and Chief Executive Officer, said: "We are pleased to report another quarter of sales growth, however the strength of the U.S. dollar somewhat impacted our international revenues. During the quarter, we launched Monster Energy® Ultra Citron<sup>™</sup> and Monster Rehab® Peach Tea + Energy, which have been well received by our consumers.

"As previously mentioned, The Coca-Cola Company transaction presents a unique opportunity for us. We anticipate that this relationship will provide us with complementary product offerings in many countries as well as access to new geographies, and access to new channels, including vending and specialty accounts. To date we have transitioned approximately 84 percent of our targeted distribution rights in the United States to The Coca-Cola Company and its distribution network, which was accomplished with minimal disruption in the retail trade. We expect to transition an additional 5 percent of the targeted volume during this month.

"We are making good progress in working through transitional issues and look forward to the closing of the transaction in the second quarter," Sacks added.

#### **Investor Conference Call**

#### Note Regarding Use of Non-GAAP Measures

Gross sales is used internally by management as an indicator of and to monitor operating performance, including sales performance of particular products, salesperson performance, product growth or declines and overall Company performance. The use of gross sales allows evaluation of sales performance before the effect of any promotional items, which can mask certain performance issues. We therefore believe that the presentation of gross sales provides a useful measure of our operating performance. Gross sales is not a measure that is recognized under accounting principles generally accepted in the United States of America ("GAAP") and should not be considered as an alternative to net sales, which is determined in accordance with GAAP, and should not be used alone as an indicator of operating performance in place of net sales. Additionally, gross sales may not be comparable to similarly titled measures used by other companies, as gross sales has been defined by our internal reporting practices. In addition, gross sales may not be realized in the form of cash receipts as promotional payments and allowances may be deducted from payments received from certain customers.

#### **Caution Concerning Forward-Looking Statements**

Certain statements made in this announcement may constitute "forward-looking statements" within the meaning of the U.S. federal securities laws, as amended, regarding the expectations of management with respect to our future operating results and other future events including revenues and profitability. The Company cautions that these statements are based on management's current knowledge and expectations and are subject to certain risks and uncertainties, many of which are outside of the control of the Company, that could cause actual results and events to differ materially from the statements made herein. Such risks and uncertainties include, but are not limited to, the following: whether and when The Coca-Cola Company transactions are completed, and results expected from them; unanticipated litigation concerning the Company's products; the current uncertainty and volatility in the national and global economy; changes in consumer preferences; changes in demand due to both domestic and international economic conditions; activities and strategies of competitors, including the introduction of new products and competitive pricing and/or marketing of similar products; actual performance of the parties under the new distribution agreements; potential disruptions arising out of the transition of certain territories to new distributors; changes in sales levels by existing distributors; unanticipated costs incurred in connection with the termination of existing distribution agreements or the transition to new distributors; changes in the price and/or availability of raw materials; other supply issues, including the availability of products and/or suitable production facilities; product distribution and placement decisions by retailers; changes in governmental regulation; the imposition of new and/or increased excise and/or sales or other taxes on our products; criticism of energy drinks and/or the energy drink market generally; our ability to satisfy all criteria set forth in any U.S. model energy drink quidelines; the impact of proposals to limit or restrict the sale of energy drinks to minors and/or persons below a specified age and/or restrict the venues and/or the size of containers in

which energy drinks can be sold; political, legislative or other governmental actions or events, including the outcome of any state attorney general and/or government or quasi-government agency inquiries, in one or more regions in which we operate. For a more detailed discussion of these and other risks that could affect our operating results, see Monster's reports filed with the Securities and Exchange Commission. <sup>1</sup>Gross sales is a non-GAAP measure that is used internally by management as an indicator of and to monitor operating performance, including sales performance of particular products, salesperson performance, product growth or declines and overall Company performance. The use of gross sales allows evaluation of sales performance before the effect of any promotional items, which can mask certain performance issues. We therefore believe that the presentation of gross sales provides a useful measure of our operating performance. Gross sales is not a measure that is recognized under GAAP and should not be considered as an alternative to net sales, which is determined in accordance with GAAP, and should not be used alone as an indicator of operating performance in place of net sales. Additionally, gross sales may not be comparable to similarly titled measures used by other companies, as gross sales has been defined by our internal reporting practices. In addition, gross sales may not be realized in the form of cash receipts as promotional payments and allowances may be deducted from payments received from certain customers.

<sup>2</sup>Although the expenditures described in this line item are determined in accordance with GAAP and meet GAAP requirements, the disclosure thereof does not conform with GAAP presentation requirements. Additionally, our definition of promotional and other allowances may not be comparable to similar items presented by other companies. Promotional and other allowances primarily include consideration given to the Company's distributors or retail customers including,

but not limited to the following: (i) discounts granted off list prices to support price promotions to end-consumers by retailers; (ii) reimbursements given to the Company's distributors for agreed portions of their promotional spend with retailers, including slotting, shelf space allowances and other fees for both new and existing products; (iii) the Company's agreed share of fees given to distributors and/or directly to retailers for advertising, in-store marketing and promotional activities; (iv) the Company's agreed share of slotting, shelf space allowances and other fees given directly to retailers; (v) incentives given to the Company's distributors and/or retailers for achieving or exceeding certain predetermined sales goals; (vi) discounted or free products; (vii) contractual fees given to the Company's distributors related to sales made by the Company direct to certain customers that fall within the distributors' sales territories; and (viii) commissions paid to our customers. The presentation of promotional and other allowances facilitates an evaluation of their impact on the determination of net sales and the spending levels incurred or correlated with such sales. Promotional and other allowances constitute a material portion of our marketing activities. The Company's promotional allowance programs with its numerous distributors and/or retailers are executed through separate agreements in the ordinary course of business. These agreements generally provide for one or more of the arrangements described above and are of varying durations, ranging from one week to one year.

<sup>3</sup>*Excludes* \$39.8 million for the three-months ended March 31, 2015, related to the acceleration of deferred revenue associated with certain of the Company's prior distributors who were sent notices of termination during the first quarter of 2015.

<sup>4</sup>Excludes \$206.0 million for the three-months ended March 31, 2015 related to distributor termination costs.

# Reconciliation of GAAP and Non-GAAP Information (\$ in Thousands, unaudited)

Adjusted results are non-GAAP items that exclude (i) the acceleration of deferred revenue, and (ii) distributor termination costs. The Company believes that these non-GAAP items are useful to investors in evaluating the Company's ongoing operating and financial results. The non-GAAP items should be considered in addition to, and not in lieu of, U.S. GAAP financial measures.
