Corona, CA — August 7, 2019 — Monster Beverage Corporation (NASDAQ: MNST) today reported financial results for the three- and six-months ended June 30, 2019.

Second Quarter Results

Net sales for the 2019 second quarter increased 8.7 percent to \$1.10 billion from \$1.02 billion in the same period last year. Gross sales for the 2019 second quarter increased 8.0 percent to \$1.29 billion from \$1.19 billion in the same period last year. Net changes in foreign currency exchange rates had an unfavorable impact on net and gross sales for the 2019 second quarter of \$25.9 million and \$30.7 million, respectively.

Net sales for the Company's Monster Energy® Drinks segment, which primarily includes the Company's Monster Energy® drinks and Reign Total Body Fuel™ high performance energy drinks, increased 9.6 percent to \$1.02 billion for the 2019 second quarter, from \$929.4 million for the 2018 second quarter. Net changes in foreign currency exchange rates had an unfavorable impact on net sales for the Monster Energy® Drinks segment of approximately \$22.1 million for the 2019 second quarter.

Net sales for the Company's Strategic Brands segment, which primarily includes the various energy drink brands acquired from The Coca-Cola Company, as well as the Company's affordable energy brands, decreased 0.8 percent to \$79.1 million for the 2019 second quarter, from \$79.8 million in the 2018 second

(more)

quarter. Net changes in foreign currency exchange rates had an unfavorable impact on net sales for the Strategic Brands segment of \$3.8 million for the 2019 second quarter.

Net sales for the Company's Other segment, which includes certain products of American Fruits and Flavors sold to independent third parties (the "AFF Third-Party Products"), were \$5.8 million for the 2019 second quarter, compared with \$6.6 million in the 2018 second quarter.

Net sales to customers outside the United States increased 16.8 percent to \$343.3 million in the 2019 second quarter, from \$293.8 million in the 2018 second quarter. Such sales were approximately 31 percent of total net sales in the 2019 second quarter, compared with 29 percent in the 2018 second quarter.

Gross profit, as a percentage of net sales, for the 2019 second quarter was 59.9 percent, compared with 61.1 percent in the 2018 second quarter. For the 2019 second quarter, gross profit as a percentage of net sales was positively affected by increased sales prices of our products sold in the United States and Canada, as well as by reduced aluminum costs. The decrease in gross profit as a percentage of net sales was primarily attributable to geographical and product sales mix as well as increases in certain other input costs.

Operating expenses for the 2019 second quarter were \$282.3 million, compared with \$262.6 million in the 2018 second quarter. Operating expenses included distributor termination expenses of \$0.3 million for the 2019 second quarter, compared with \$5.5 million in the 2018 second quarter.

Distribution costs as a percentage of net sales were 3.4 percent for the 2019 second quarter, compared with 3.7 percent in the 2018 second quarter.

Selling expenses as a percentage of net sales for the 2019 second quarter were 11.2 percent, compared with 11.4 percent in the 2018 second quarter.

General and administrative expenses for the 2019 second quarter were \$120.8 million, or 10.9 percent of net sales, compared with \$108.4 million, or 10.7 percent of net sales, for the 2018 second quarter. Stock-based compensation (a non-cash item) was \$15.6 million for the second quarter of 2019, compared with \$14.9 million in the 2018 second quarter.

Operating income for the 2019 second quarter increased to \$379.0 million from \$357.6 million in the 2018 second quarter.

The effective tax rate for the 2019 second quarter was 23.4 percent, compared with 24.6 percent in the 2018 second quarter. The decrease in the effective tax rate was primarily due to the increase in profits earned by certain foreign subsidiaries in lower tax jurisdictions than the United States.

Net income for the 2019 second quarter increased 8.3 percent to \$292.5 million from \$270.1 million in the 2018 second quarter. Net income per diluted share for the 2019 second quarter increased 11.9 percent to \$0.53 from \$0.48 in the second quarter of 2018.

Rodney C. Sacks, Chairman and Chief Executive Officer, said: "We are pleased to report record gross and net sales in the 2019 second quarter, driven by our Reign Total Body Fuel™ high performance energy drinks, which we launched in the first quarter, as well as growth in our Monster Energy® brand energy drinks both domestically and internationally.

"Our Monster Energy® brand energy drinks were launched in a number of new countries during the quarter in the Middle East, Latin America and the Caribbean.

"Later this year we are planning to introduce a number of new Monster Energy® brand energy drinks in the United States and in various international markets.

“We also launched Predator®, our affordable energy brand in a number of additional international markets during the second quarter, with plans for further launches of Predator® later this year,” Sacks added.

Note Regarding Use of Non-GAAP Measures

Gross sales is used internally by management as an indicator of and to monitor operating performance, including sales performance of particular products, salesperson performance, product growth or declines and overall Company performance. The use of gross sales allows evaluation of sales performance before the effect of any promotional items, which can mask certain performance issues. We therefore believe that the presentation of gross sales provides a useful measure of our operating performance. Gross sales is not a measure that is recognized under accounting principles generally accepted in the United States of America (“GAAP”) and should not be considered as an alternative to net sales, which is determined in accordance with GAAP, and should not be used alone as an indicator of operating performance in place of net sales. Additionally, gross sales may not be comparable to similarly titled measures used by other companies, as gross sales has been defined by our internal reporting practices. In addition, gross sales may not be realized in the form of cash receipts as promotional payments and allowances may be deducted from payments received from certain customers.

The following table reconciles the non-GAAP financial measure of gross sales with the most directly comparable GAAP financial measure of net sales (in thousands):

	Three-Months Ended June 30,		Six-Months Ended June 30,	
	2019	2018	2019	2018
